Luis/Stacie

Connie Stewart (Bayer) and Jerome Cibrik/CH2M HILL reviewed the CA module and requested that the module be revised so that it is more consist with UCC's Facility Lead Agreement. I wanted to send it to you for a review this afternoon, if possible, since I am not sure what is going to happen after tomorrow.

Subject: Bayer CropScience Institute CA Module Comments

Cathy,

Attached please find the requested revisions/comments from Bayer CropScience and UCC regarding the proposed Corrective Action Permit Module. It is our understanding that WVDEP is working to standardize the language and has some changes that we have not seen related to the financial assurance section. I have also addressed your request to include the SWMU numbers for the ICs (where they were located within SWMUs) and also added a description of the HPH IC. Please let me know if you have questions about the comments/requested revisions.

Thanks,

Kylie
